Exterior

How wheel you decide?

Are you one of life's undecided? Then prepare for some tough choices: take your pick from six different aluminium wheels and three different spare wheel covers. Then again, if that got you stumped you probably wouldn't drive a Jimny in the first place. So let your taste decide or just toss a coin. Whatever you go for, you can be assured of powerful looks and a rock-solid grip in every situation.

Interior

Feel-good extras.

While plenty of accessible stowage space and robust protection may be the top priorities for an outdoor adventure off-roader, plenty of details are available for added comfort and safety on board. This is true not only for the leader of the pack, but for the junior members of the expedition too. The right accessories keep the luggage in its place and a smile on every face, even on longer trips.

Protection

Even action heroes need protecting from the knocks.

Your Jimny looks after you – pay it back in kind! With its comprehensive safety package ranging from ABS to full-size airbag, it is always there to protect you. Show your appreciation by treating your Jimny to a few accessories to protect the paintwork, bodywork, underbody or interior from the knocks it faces out in the wild. And spare yourself the trials of exposure to the elements as well as the pain that every scratch would cause you as a proud owner. Here's to a lasting friendship!

Audio and Navigation

The soundtrack to
your destination.

Let your Jimny know where you're headed and it will guide you along the way. What's on the agenda? Shopping, a trip to the end of the world or beyond? Whatever the destination, your Jimny will get you there. En route you have a full range of facilities on board to while away the time, from a radio to a complete navigation, entertainment and communications system.

1

1 | Pioneer AVIC-F40BT

Managing your car's navigation and entertainment system has never been easier.

The 7-inch (17,8cm) WVGA touch screen can be customised to your personal menus whilst Advanced App Mode allows you to access an ever-growing number of iPod touch¹/iPhone¹ 4/4S compatible apps directly from your car dashboard. If you prefer to keep your hands on the wheel, the voice-activated speech commands let you control your phone calls and your multimedia without lifting a finger.

Key features include:

Navigation

- Latest maps of 44 European countries, including 154 detailed city maps and 3D visualisation of major landmarks.
- NavGate Feeds PC application allows you to add POIs with Google Maps and ViaMichelin (6.9 million pre-installed POIs).
- Text-to-Speech (TTS) provides voice guidance and relays traffic information from the Traffic Message Channel (TMC) in 18 languages.
- Voice-activated Speech Commands control a number of Bluetooth² and audio functions.
- Drive Report tracks journeys and Eco Drive analyses driving performance (e.g. acceleration, braking and CO₂ emissions).

Multimedia

- AM/FM radio, standard audio/video formats (CD, DVD, USB, SD card) and direct iPod¹/iPhone¹ control (with optional cable).
- Advanced App mode enables music and video from your iPhone¹/iPod Touch¹ Apps and functions with other useful and compatible Apps.

Telephony

- A Parrot Bluetooth² module seamlessly pairs with your phone from anywhere within the car and it stores information from up to 5 different phones and up to 1000 contacts per phone.
