Dettagli della vettura testata

Specifiche

Modello testato	Infiniti FX37 GT, LHD
Tipo carrozzeria	5 porte SUV
Anno di pubblicazione	2009
Peso	2001kg

Numero di identificazione veicolo (VIN) a cui si riferisce la valutazione

Applicabile a tutte le applies FX's testate

Classe

GRANDE FUORISTRADA 4x4

Safety equipment

Pretensionatori della cintura di sicurezza sedile anteriore

Limitatori di carico cinture di sicurezza anteriori

Airbag anteriore conducente

a una fase

Airbag anteriore passeggero

a una fase

Airbag laterali

Airbag laterale per la testa

Commenti

Protezione dei adulti

The passenger compartment remained stable in the frontal impact. Structures in the dashboard presented a risk of injury to the knees and femurs of both driver and passenger. The FX scored maximum points in the side barrier impact. In the more severe side pole test, protection of all body regions was rated as good apart from the chest, which was adequate. Protection against whiplash injury in a rear impact was rated as marginal.

Bambini

Forward movement of the head of the 3 year dummy was not excessive in the frontal impact (the 18 month dummy was in a rearward facing restraint). In the side impact, both dummies were properly contained by their restraints. The passenger airbag can be disabled to allow a rearward facing child restraint to be used in that seating position. However, information provided to the driver regarding the status of the airbag is not sufficiently clear. A label on the passenger sun visor clearly warns against the dangers of using a rearward facing child seat without first disabling the airbag.

Pedoni

The bumper provided predominantly marginal protection for pedestrian's legs and the front edge of the bonnet mostly poor. In most areas likely to be struck by the head of a child, protection was poor but in those areas most likely to be struck by an adult, good protection was provided.

Dispositivi di sicurezza

The FX is equipped as standard with electronic stability control, a driver-set speed limitation device and a seatbelt reminder system covering the driver, front passenger and all rear seating positions.
