## CARBON

NEW PRODUCT

The carbon craze continues for 2021, and the latest model to be added to HJC's carbon fiber lineup is the new F70 Carbon.

Normally featuring a lightweight fiberglass composite shell, the aggressive-looking design of the F70 now enjoys the durable, ultra lightweight advantages of a carbon fiber outer shell along with the stunning appearance of our flawless small-weave carbon fiber pattern.

SMART HJC

The i30 was created from years of design and research, bringing the best open face helmet to the market. It starts with the next generation face shield HJ-34. This new Pinlock ready shield offers a wide distortion-free view, and now has a reinforced frame around the lower edges to reduce wind turbulence.

The shield also uses the tool-less, quick release base plate system for easy to installation and removal. We also updated the internal sun shield with an increased coverage area from our previous model.

The 3 top vent intake system provides maximum airflow into the helmet, while the rear exhaust spoiler creates a vacuum effect flushing out the heat.

The Multi-Cool top liner and cheek pad interior gives additional cooling features with its moisture-wicking anti-bacterial fabric. The 2 shell/3 EPS design reduces the weight of the helmet and offers better sizing.

The i30 is also SMART HJC ready to accept the 10B or 20B Bluetooth systems (\*sold separately). Overall, this new open face helmet will be the choice of riders for years to come.

**SMART HJC**

**i30**

The C80 Dual Sport Modular helmet brings a new look to the HJC lineup. Designed to be used in either off-road or street, this new model allows the rider to have multiple configurations.

The helmet is composed of our Advanced Polycarbonate Composite Shell, that provides a lightweight helmet, with superior fit and comfort from the advanced CAD technology.

The C80 offers a wide-vision face shield and easy-to-use internal sun shield. It also has a large top and lower vent to help keep the rider cool in hot riding conditions. Vents are easy to access and use with gloves on. The multiple helmet configuration allows the rider to use the helmet with or without the extended peak visor. The modular chin bar uses a one-touch and easy to use lever that is glove friendly.

The C80 is also SMART HJC ready to accept the 10B or 20B Bluetooth systems(\*sold separately).

SMART HJC

C80

The C91 helmet will offer riders some of the best features on the market at a budget friendly price, starting with the Advance Polycarbonate Composite Shell. It provides a lightweight helmet with a superior fit and comfort using advanced CAD technology.

The chin bar operates with an easy to use single lever and is user friendly with gloves. It also includes an internal sun shield with a manual mechanism that moves forward and back with ease.

The large top vent allows airflow ventilation throughout the deep EPS channels of the helmet, keeping you cool on rides.

The SuperCool top liner and cheek pad interior gives additional cooling features with its moisture-wicking anti bacterial fabric.

The C91 is also SMART HJC ready to accept the 10B or 20B Bluetooth systems (\*sold separately).

RPHA 90®

The reinvented RPHA 90S is the most compact modular helmet on the market. Resembling a full-face helmet through weight and appearance, yet functioning as a modular helmet.

The Premium Integrated Matrix (P.I.M. Plus) shell provides enhanced shock-resistant performance and a comfortable and very lightweight helmet using reinforcement materials that include carbon and Aramid fabric.

The anti-fog and anti-scratch coated sun-visor has increased visibility to reduce eye strain and block sunlight. To reduce the noise in a modular helmet, the RPHA 90S has a 3D-engineered low-noise interior that is focused to reduce noise significantly.

For convenience, the EPS design accommodates eyeglasses and sunglasses and also has recessed areas for custom speaker placement. the RPHA 90s is compatible with HJC's Bluetooth communication system SMART HJC.

## EASY TO USE SMART HJC MOBILE APP

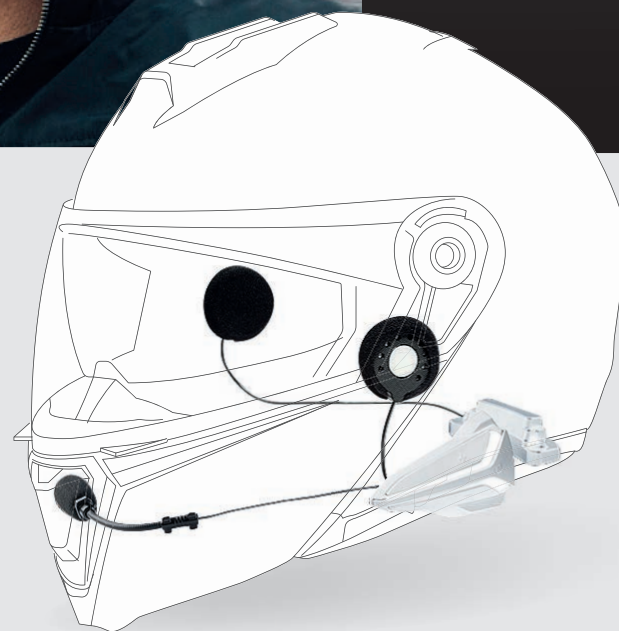

The smart phone app allows you to quickly and easily control various functions of the SMART HJC communication system and also review the Quick Start Guide.

# SMART HJC

The SMART HJC 20B provides various functions such as group intercom for optimum riding experience, with the Universal Intercom™.

SMART HJC 20B can be connected to various Bluetooth communication devices. The Noise Control™ feature suppresses wind sound and other noises effectively during intercom or phone calls, while maintaining the high audio quality.

**#1 IN THE WORLD**

# BRAD BINDER

MOTOGP CZECH WIN

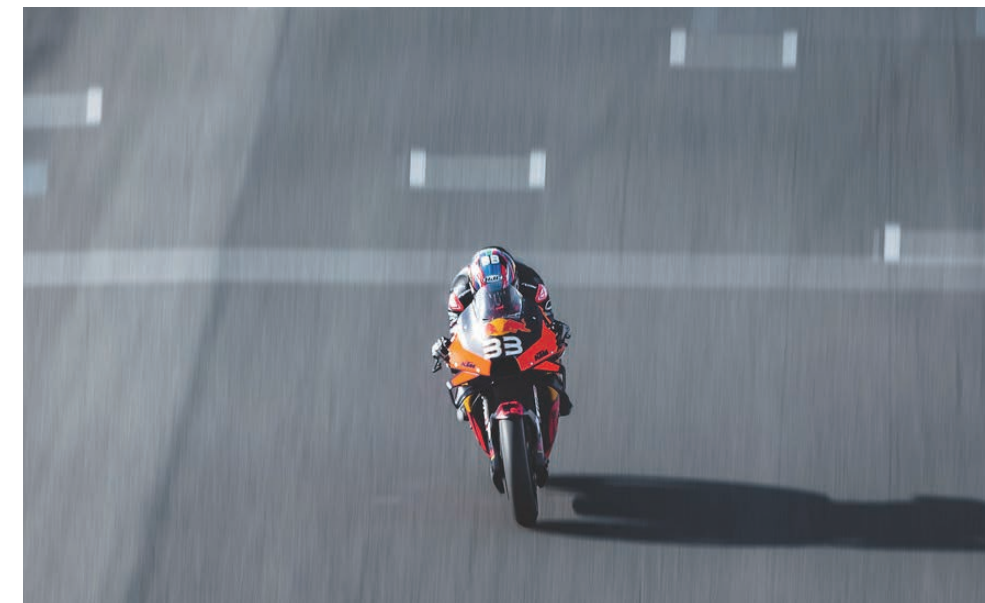

# BRAD BINDER IN MOTOGP

In only his 3rd start, Brad Binder has etched his name in the history books for HJC Helmets, and Red Bull KTM Factory Racing (First Red Bull KTM Factory Racing MotoGP Victory) and has been added to a short list of legendary riders, which include Valentino Rossi, Jorge Lorenzo, and Marc Marquez, to win in their rookie season.

With an HJC Helmets RPHA 01R on his head, Binder showed extreme poise as he made his way to the front of the pack and maintain a lead of over 5 seconds without showing any signs of weakness.

4th and 5th races at Red Bull Ring Spielberg proved that Binder is racer of consistency, placing within the top-10 in both races. Race 4 had a myriad of events that caused the race to be red flagged and restarted.

Through the restart Binder was able to make his way through the field and placing a respectable 4th. Race 5, again, was red flagged and was restarted. While starting 10th on the grid, Binder showed poise as he fought his way into the top-10, placing 8th. Binder is a true contender in the Premier MotoGP class and has huge potential to contend for the Premier MotoGP Championship.

# SUPER ALBERT ARENAS

HJC's Albert Arenas is making the most out of 2020 and his final year aboard a Moto3 machine by delivering a massive statement to the Grand Prix paddock following his victory at the season opener back in March and the subsequent four-month hiatus from action thereafter: He's here to win!

Arenas appeared unfazed by the long break from racing when the Moto3 season resumed on July 19th at Circuito de Jerez in Jerez de la Frontera, Spain, and the 23-year-old Spaniard captured his second win in just two rounds with a spectacular last-lap pass in the final corner before the checkered flag, extending his points lead and showing the rest of the field that he's a serious contender in the fight for 2020 Moto3 World Championship.

As the season pushes forward, Arenas' dominance continues, and the championship leader has landed on the podium two more times including his infamous win at the Austrian GP where he debuted HJC's upcoming collaboration with DC Comics, Superman! Well done, Albert!

# DOUBLE THREAT

HJC Helmets' newest addition to the MotoAmerica roster, Rocco Landers, is proving at just 15 years old that he can run with the big boys, even while on double duty as a second-year pro.

Rocco, the reigning 2019 Junior Cup Champion, is defending his Junior Cup crown in 2020 while simultaneously contesting the Twins Cup title, stepping away from the 14-25 age limit of Junior Cup and lining up on the grid in a class with seasoned veterans.

While some young riders might need time to adjust, Rocco showed he's up for the task after earning double wins on the final day of action at Round 2 in Elkhart Lake, Wisconsin, in both the Junior Cup and Twins Cup championships.

## HJC HELMETS IN RED BULL MOTOGP ROOKIES CUP

The Red Bull Rookies Cup season is finally underway after several delays due to the global pandemic. As the new official helmet sponsor, HJC was at the Red Bull Ring to provide racing service for the 26 riders who were selected!

The riders finally see the RPHA 01R helmets that were painted by Dave Designs and his team of incredibly talented helmet painters. Each helmet has a unique design from the input of the individual rider.

The early favorite to win the cup this year is Pedro Acosta. The young Spanish rider is part of last year's group that is returning for the second year. Having more seat time and being more comfortable on the bike a second time around will give him an advantage over some of the new incoming riders. The first race of the Red Bull Rookies Cup will be part of the Austrian Grand Prix August 14th to 16th.
