

X-CAPE

THE MOTO MORINI ENTRY LEVEL
THE NEW MOTO MORINI 650CC PLATFORM,
DESIGNED FOR THE NAKED AND ADVENTURE
SEGMENT, DEBUTS AT EICMA 2019.

X-CAPE is the Moto Morini styled Adventure: versatility, fun and comfort distilled in a futuristic, eye-catching look.

The 19" front wheel and a large 50 mm diameter front adjustable fork guarantee a surprising road holding, making it just as suitable for mountain passes as off road dirt tracks.

The large saddle space, which is also comfortable for the pillion passenger is only 83 cm off the ground, but offers perfect ergonomics also for taller riders.

The large 7" TFT dash screen – among the biggest on the market – gives access to a complete and clear vision of all necessary information, both for the more adventurous trips as for chaotic urban traffic.

The windscreen, adjustable with only one hand, the travel panniers with ample handles for the pillion passenger, and the full LED headlights complete the range of a decidedly superior standard equipment range. There is no lack of fundamental accessories such as the trio of bags, the protective bars or the heated knobs, indispensable on a true Adventure.

The motorcycle will be sold in a standard or limited 48 HP version, equipped with a very reliable engine and a simple and easy power supply, perfect for all those who are looking for a faithful, untiring companion.

Overall length: 2200 mm
Overall width (excluding rear view mirror): 850 mm (1040 mm with sidebag)
Seat height: 830 mm (available also as 845 mm)
Steering ability: 34°

CHASSIS:

Material: High resistant steel
Wheelbase: 1480 mm
Rake angle: 25,5°
Trail: 120 mm

BRAKING SYSTEM:

Front brake: double disc, diameter 300 mm, floating caliper
Rear brake: Single disc, diameter 255 mm, double piston caliper
ABS: on both wheels

RIMS:

Front rim: 2,50"x19" spoked rim
Rear rim: 4,25"x17" spoked rim

TYRES:

Front tyre: 110/80-19"
Rear tyre: 150/70-17"

ELECTRONICS:

Engine management: BOSCH ECU
Dashboard: 7" TFT" with Bluetooth connection

ENGINE:

Layout: 2 cylinders in line
Displacement: 649 cc
Cooling system: liquid
Gearbox: 6 speed

SUSPENSIONS:

Front fork: Ø 50 mm Upside down telescopic fork, fully adjustable in preload, damping in compression and rebound
Wheel travel: 160 mm
Rear suspension: Single shock absorber adjustable in preload and rebound damping
Wheel travel: 135 mm
