ETrek

Our all new **ETrek** model represents a transition to expand our model range to on road use. The **ETrek** is versatile as it comes with a traditional comfortable seat which adapts it well for legal street use.

The **ETrek** is perfect for use in the city or off road, its light weight at **98 kg** is an amazing riding experience.

If you want more power, the **ETrek** will be made for you. With this model you could easily reach **95 km/h!**

Make it your first choice. Whether you're riding in the heart of the city, or on your favourite trails, you will find the **ETrek** an amazing riding experience.

With its aggressive styling combined with ultra slender designed, make the **ETrek** one of the most stunning bikes in the market!

ETrek

ETrek Power

The **ETrek** is equipped with a **lithium polymer battery 2,7 kWh** and a brushless motor. You will be able to ride more than 73 km and reach a maximum speed of 85 km/h * with the 

and a maximum speed of 95 km/h * with the 

The ETrek is playful and powerful.

ETrek Display

On all technology fronts, the **ETrek** offers multiple options. The **EMap** allows you to change in real-time to **adjust power and top speed to meet your needs.**

ETrek Brake

Standard on our **ETrek** is regenerative braking to recharge your **EM battery.**

* Range and top speed vary based on riding style and drivetrain configuration

ETrek Frame

Electric Motion has designed a bike easy to ride in town and efficient for an off road use. With its **inverted fork, frame from competition design** and all the elements combined, equip the **ETrek** to make it a very light and nimble motorcycle. This allows the **ETrek** to be comfortable in any riding situation.
