

125
Max Speed 125km/h

140
140km Long Autonomy

**TYPE 2 OBC
Charging**

**GB/T
Mennekes(Type2)**

Highly operable turntable

Riding is more secure

Rear single swingarm

The double Y-shaped single rocker arm brings a strong rear wheel suspension
Parallelogram rocker arm structure to protect the belt
Extended service life, unique quadrilateral rocker arm structure to ensure that the belt drive is foolproof

TFT Meter

TFT interactive instrument, clear display, clear at a glance
Diversified on-board information is at your fingertips, so you can only ride comfortably

LED

LED light for the whole e-motorcycle

Driving at night looks more cool
Continuous integrated headlight design
Large illumination range & high illumination brightness & high recognition

KINETIC ENERGY RECOVERY

Improving battery life, economical travel, and reducing braking
Reducing workload and extending braking systems

REVERSE

One-click reversing
Easily cope with different terrains

RAMP PARKING

Stop and go
Easy start on half slope

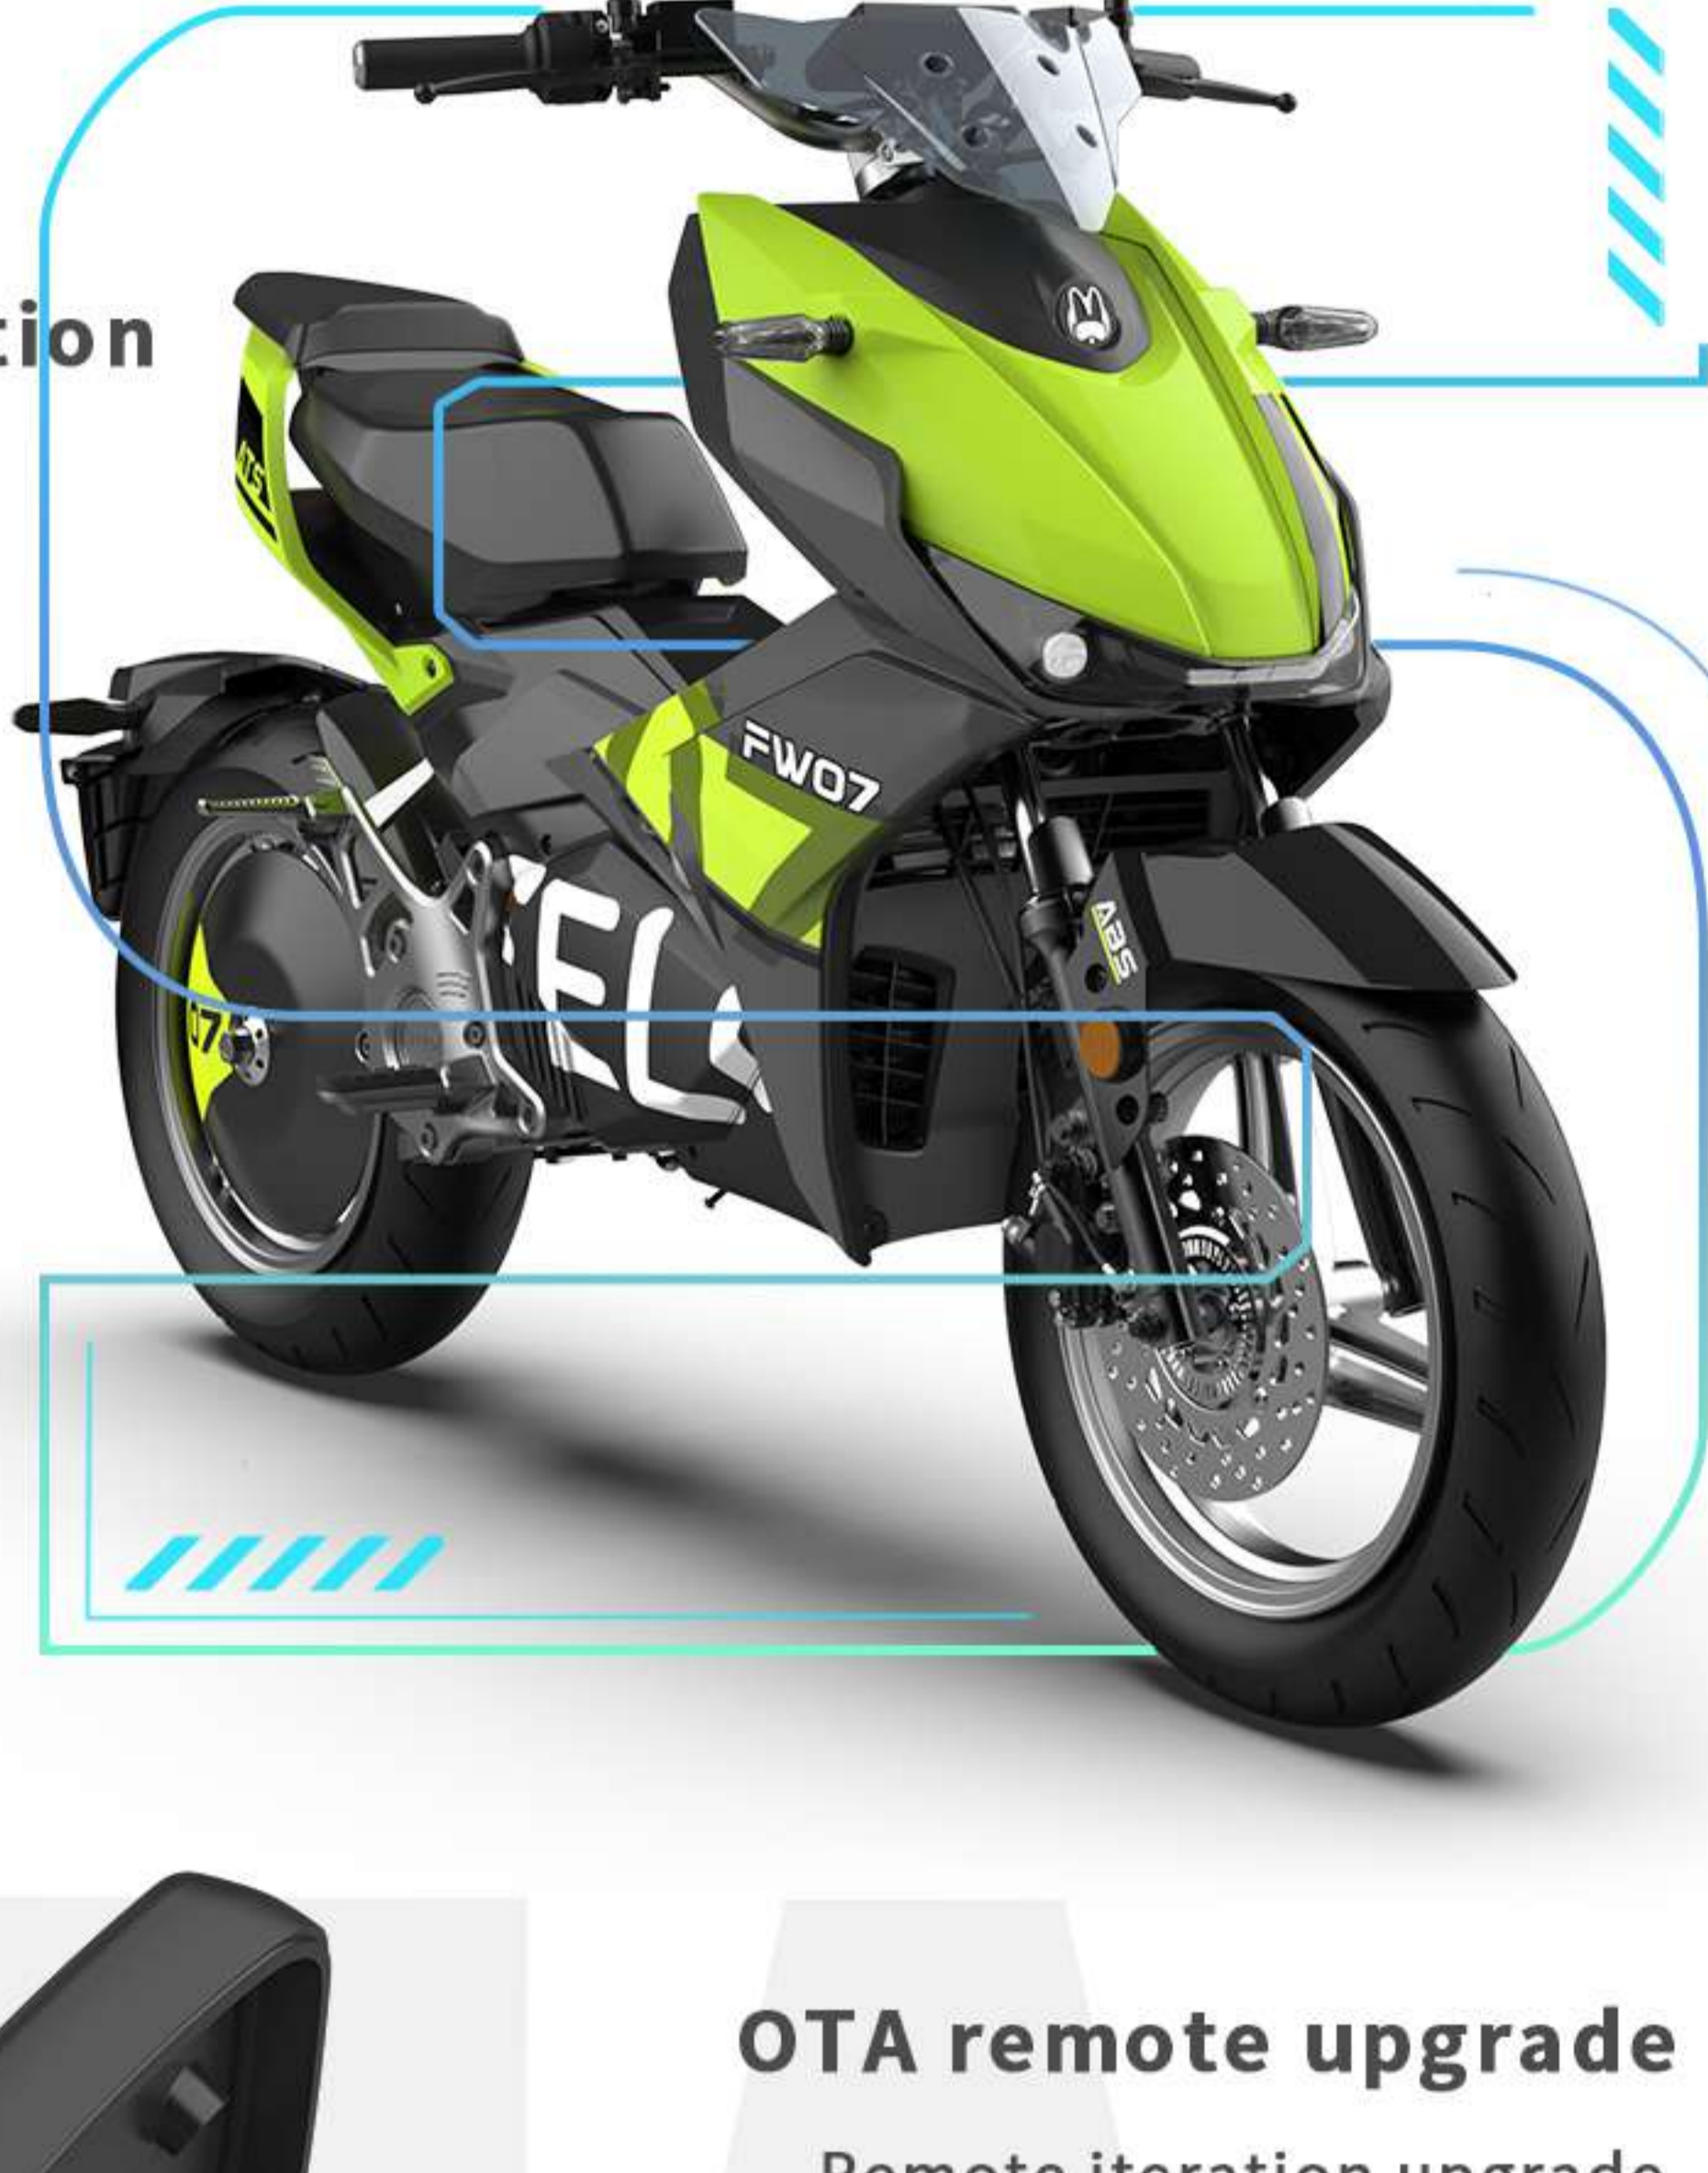

USB charging
Extended USB charging port

NFC unlocking
Awaken the passion for driving, Enjoy the operation
NFC sensor unlock, Get rid of keys

**S-key
super acceleration**

Improving the speed by 7%-9%

Track pedigree

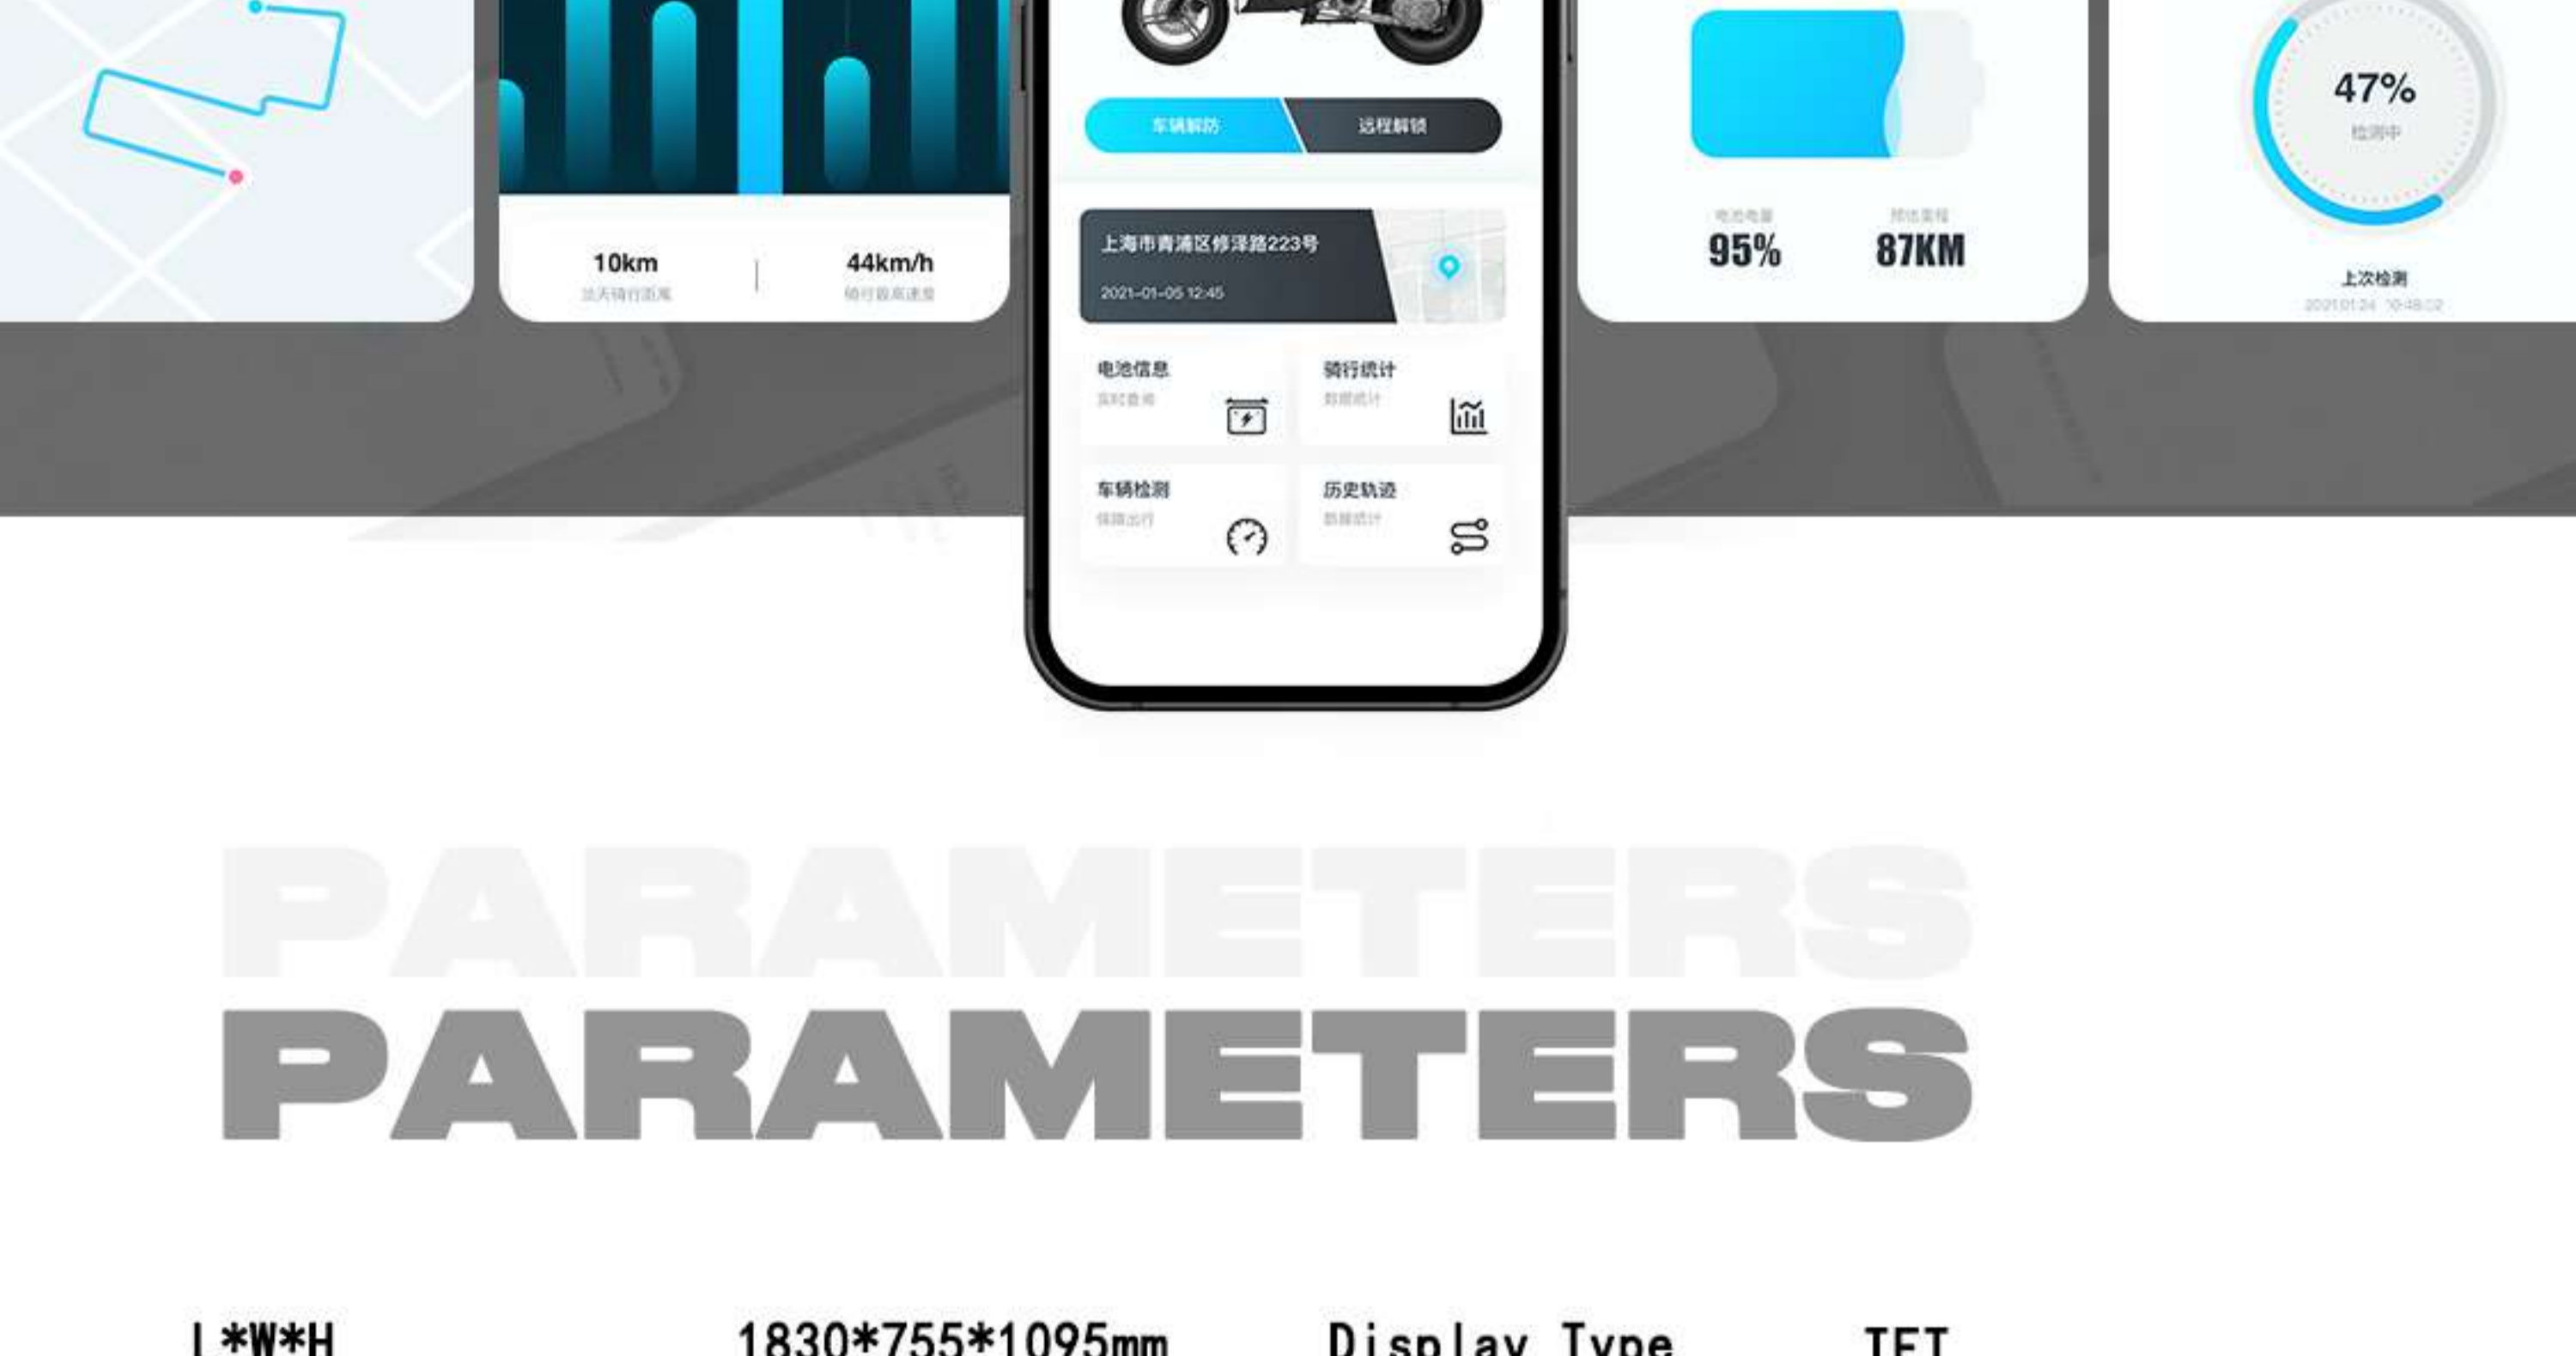

OTA remote upgrade

Remote iteration upgrade,
Improve the driving experience,
Remote repair of faults
Improve convenience

APP

APP real-time detection, satellite positioning, remote unlock, anytime, anywhere to know the driving situation

**PARAMETERS
PARAMETERS**

L*W*H	1830*755*1095mm	Display Type	TFT
