

INDIAN CHIEF VINTAGE

AMERICAN / ORIGINAL / TIMELESS

Chief Vintage stands as the true expression of the American cruiser. Born from the original Chief it carries forward the design that defined an era.

- From the flowing valanced fenders to the commanding Thunderstroke motor Chief Vintage is built with purpose, precision, and pride.
- The Thunderstroke engine's black cylinders and silver-painted heads reflect the manufacturing process of the 1940s.
- The vintage solo seat bridges eras of design. Its silhouette could have rolled off the line eighty years ago, yet its ergonomics are entirely modern.
- The illuminated headdress shines from the valanced fender—a hallmark of Indian Motorcycle design and a detail that still turns heads at every stoplight.
