Kawasaki

Kawasaki motorcycles are a distillation of the most advanced technology the world has to offer.

Representing a unique engineering heritage and a wealth of technological expertise combined with passion, performance and individuality, Kawasaki motorcycles are not just about high performance. They are a crystallisation of advanced technology arising from the collective efforts of the Kawasaki Heavy Industries Group, whose activities span a wide range of business domains including Land, Sea and Air Transportation Systems, Energy & Environmental Engineering and Industrial Equipment.

Kawasaki motorcycles possess both power and grace so are often recognised as being different to other bikes. This results from certain guiding principles adopted at the design stage. Rideology is Kawasaki's rider-centric development philosophy focused on how the riding experience offered by a Kawasaki is crafted, ensuring that our machines are fun to ride and rewarding to control. This approach has been the force behind many of our legendary machines, and in our pursuit of all possibilities it will continue to guide the future creation of Kawasaki motorcycles.

Kawasaki

WORLD CLASS

IF YOU COMPETE YOUR NATURAL INSTINCT IS TO WIN. KAWASAKI FEEDS THAT DESIRE TO DOMINATE ON TRACK AND TO BE BEST IN CLASS FROM A FIRST FORAY INTO CLUB RACING ALL THE WAY TO THE PINNACLE OF PRODUCTION BASED RACING IN WORLDSBK AND MXGP.

Four years ago Jonathan Rea won his first WorldSBK title aboard the Ninja ZX-10R. He's won every title since making it four championships in a row. Meanwhile Ninja 400 rider Ana Carrasco became the first female winner of a full FIM World Championship road-racing category when she finished first in the 2018 WorldSSP300 championship. Kawasaki has won manufacturer and team titles every year since 2015 creating an unrivaled winning streak. If you want to count the wins count on Kawasaki.

FIRST TO FINISH

To finish first, first you have to finish. You need season long performance from you and your machine. KX gives you the confidence to compete and reassurance to race week in week out. While others may briefly shine and fade, KX riders can rely on rugged reliability and inspired innovation. From MXGP and MX2 to WMX and your local club championship KX riders have every right to be the first across the finishing line.

You, your Z, the roads you ride, ridden your way. Rely on Z to deliver the thrill of motorcycling at its most elemental and raw. From the middleweight agility of the Z650 via the ultra-intense Z900 to the pure potency of the Z1000, the no-compromise spirit of Z continues to evolve undiminished. Innovation and new technology have always been part of the Z legend, always enhancing the experience and never at the expense of the Z spirit; the essence that has captivated riders across more than four decades. For the individual in pursuit of the authentic there is only one supernaked that delivers –

the Kawasaki Z, Refined Raw.

A composite image featuring a close-up of a motorcycle's engine and a rider on a road in the background. The foreground shows a detailed view of the engine, with a prominent red frame element. The background shows a rider on a motorcycle on a road, with a license plate that reads 'S 714 OBBZ'. The sky is blue with some clouds.

Z1000

Z1000 R Edition

Born free and untamed, the Z1000 R Edition sets new standards for the litre capacity, four-cylinder Supernaked class.

Awe inspiring, intimidating and with animal presence, the Z1000 will recalibrate your emotions.

Z1000

Z1000 R Edition

The aggressive and unique Sugomi inspired Z1000 is already a highly respected machine offering brutal functionality and impactful riding characteristics. The Z1000 R Edition has an even more dramatic package with a menacing colour scheme plus Brembo M50 calipers and an Öhlins rear shock which will delight fans of naked streetfighter class machines that demand a refined yet raw ride.

Z1000 features

1,043 cm³ In-Line Four • 142 PS • Sugomi design philosophy • Monobloc radial brake calipers (Brembo M50 on the R edition) • Aluminium frame • Characteristic intake howl • Aluminium fat handlebars • Multi functional LCD instrument panel with gear position indicator • LED head and tail light • Assist & Slipper clutch • Fully adjustable separate function BPF forks • Horizontal Back Link rear suspension (Öhlins S46DR1S with remote preload adjuster on the Z1000 R Edition)

BREMBO BRAKE COMPONENTS

Brembo M50 monobloc calipers with massive 310 mm Brembo semi-floating discs, like found on the Ninja H2R are implemented on the Z1000 R edition. The Brembo components featured are the best available on a mass-production model. The high-precision operation delivers brake force linearly, contributing to superb controllability.

OHLINS SHOCK ABSORBER

Complementing the enhanced braking performance, high-quality Ohlins S46DR1S rear suspension offers both increased ride comfort and the pride in ownership that comes from the knowledge that your machine is equipped with top-shelf components.

SUGOMI STYLING
The aggressive Z Supernaked styling blends Sugomi design elements with a slim, light-looking package, resulting in a head-turning design.

FUN TO RIDE

When opening the throttle, riders will notice an extremely smooth and powerful engine character that offers both a high level of control when making subtle throttle adjustments and a gratifying rush of acceleration in the lower rpm ranges.

1. Both clutch and brake levers are 5-way adjustable to accommodate a variety of hand sizes for increased comfort. **2.** Horizontal Back-Link Rear Suspension delivers a balance of sporty performance and ride comfort. **3.** The sharp LED taillight lights up in “Z” pattern, contributing to the sporty Z supernaked image. **4.** Underneath exhaust lowers the bike’s centre of gravity and the sleek silencer design adds to the bike’s overall slim looks. **5.** Dual Ø 300 mm petal discs, dual piston caliper and Bosch ABS unit deliver plenty of braking power.

Z SUGOMI STYLING

Matching its exciting performance, the Z400 is clad in an aggressive new Sugomi inspired styling.

1. The 399 cm³ engine delivers improved power and torque over its 300cc predecessor; the smooth response and abundant low-end torque aid throttle control for new and experienced riders alike. **2.** The Assist & Slipper clutch offers a lighter clutch lever feel and prevents rear wheel skipping on quick downshifts. **3.** LED taillight design contributes to the sharp impression. **4.** LED headlamps contribute to the sharp looks and high visibility. **5.** The large single semi-floating Ø 310 mm petal disc and the latest Nissin ABS unit deliver front brake power and feel.

MODERN INSTRUMENT CLUSTER

The analogue-style tachometer features a gear position indicator at its centre and sits atop a multi-function LCD screen, offering the rider an easy-to-read layout.
